HODGSON HOUSES

FOR forty years Hodgson Houses have held a unique position in all parts of the world. Their inviting simplicity and harmonious lines appeal to people of good taste; and thus, with their attractive and well planned interiors, they have given enjoyment to people, in all sorts of circumstances, in all sorts of climates, under the most trying conditions.

The construction is simple. Made of enduring red cedar, in completely finished sections with windows in place, doors hung—in fact, all carpentry work and painting completed at the factory; and even the hard pine floors are sanded and shellacked before shipping; so that the houses are quickly erected by local labor; or by our factory men.

Thus the purchasers of Hodgson Houses are saved much time, expense and the confusion and many worries connected with building operations.

The Single Wall Construction (Fibre Lined) shows the frame on the inside, with a background of heavy waterproof fibre lining next to the cedar boarding.

The Double Wall Construction (Arctic Lined) is the same as the single wall with the addition of Arctic Board (Celotex) on the inside frame; on side walls, roofs, floors and partitions, giving a double wall with an air space between—more comfortable in coldest weather than a well built plastered house.

If interested, send for our large catalog showing many pictures of our houses and plans.

HODGSON COTTAGE No. 3401 AT OUR DOVER, MASS., EXHIBIT

Denman Thompson's Cottage, Erected in 1905

"Last summer you were kind enough to send me catalogs of your charming Hodgson Houses. I was particularly interested to see a cut of the little cottage which you sold to Denman Thompson, which is located on our property which we bought from his descendants. Indeed, that little cottage is the most popular of all the sleeping quarters."

ANN M. JONES,

Pine Acres, Swanzy Lake, West Swanzy, N. H.

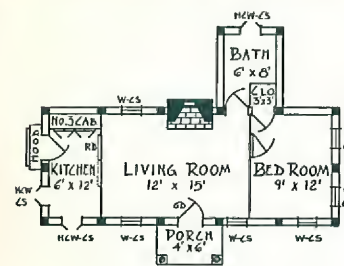

Care in Constructing, Shipping and Erecting

"I enclose check in payment for the Hodgson House which you recently sent me. The house is, of course, up and established by now, and I want to let you know that I am very much pleased with it and with the obvious care with which it was constructed, shipped and planned for erecting."

Used Throughout the Year

"My house has been absolutely satisfactory and I have never done business with any concern with whom it was pleasanter to deal. Your company not only did all that you promised, but more, and everything about the house was better than I expected."

ROGER AMORY,
19 Congress Street, Boston, Mass.

Troy, Turkey

"Your letter of September 15th has reached me, having been forwarded from Athens. I am enclosing three photographs of the Hodgson house which we set up on the plateau beside the hill of Troy, Turkey, last spring.

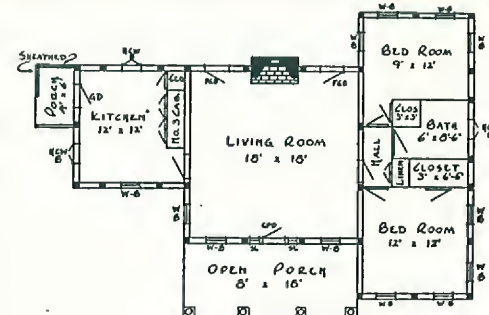

"The house is very comfortable and satisfactory, and we consider ourselves fortunate in being so well installed."

"I will write a few lines, saying how much I have enjoyed my house for twenty years, and will send you a picture in the near future. Glad to do it."

MARY BOWDITCH FORBES, Milton, Mass.

Hodgson Cottage at Lake George, N. Y.

"The Hodgson Cottage I now have has been in use for the past three or four years, and has given me such excellent satisfaction and comfort that I would not consider going elsewhere now that the question has come up for me to move to another location, making it necessary to buy another house.

"The house is erected at Lake George, where, as you well know, we have very severe winters, but it has come through admirably—never leaks a drop of water and is apparently in as good condition now as the day it was erected."

EVANGELIN BOOTH,
Commander-in-Chief.

Hodgson Houses Make Comfortable Homes

"During the cold wave of the week of Dec. 26, 1933, when the temperature was less than ten degrees below zero, my Hodgson House was at all times comfortable. To the best of my knowledge, the temperature never fell below the thermostatic control of 58-60 degrees at night and 68-70 degrees in the daytime.

"Considering the fact that previous checks show that I burned less coal than my neighbors for the same size house, I consider the above record a great tribute to the construction and insulation of the Hodgson House."

ROGER AMORY,
19 Congress St., Boston, Mass.

Moosehead Lake 18 Years

"I would like to say that the first Hodgson Houses I bought (it must be 17 or 18 years ago) are in just as good condition as when they were first put up. They have been here on Farm Island during the severe Maine winters.

"I was pleased to see the letter my son-in-law (Mr. John McEntee Bowman) wrote in your catalogue."

On Cape Cod 15 Years

"Please send me your latest catalogs and price list.

"About fifteen years ago I purchased one of your camp houses, for use on Cape Cod. It has stood there ever since, exposed to all extremes of wind and weather, receiving no attention except a coat of paint seven years ago.

"It has never leaked a drop and is as good and substantial as the day it was set up."

(Mrs. Arthur W.) MILDRED G. FREEMAN,

Twenty-five Years at North Haven, Maine

"Looking at your catalogue again, it occurs to me that you may be interested to know that the 10 room Hodgson house which I bought of you twenty-five years ago, erected first at Mt. Kisco, New York, and then at North Haven, Maine, still stands apparently in as good condition as it was when I was a boy—or near it! The cottage is snug and comfortable.

"I only wish that I could live in it except for the briefest of holidays in the summer."

Hodgson Sectional Green Houses

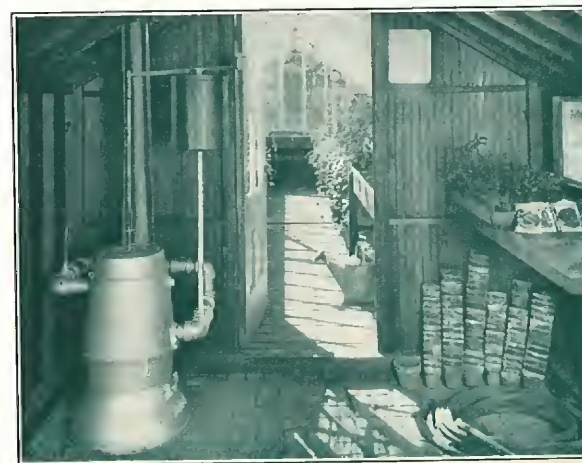

THESE greenhouses are made of the best quality of red cedar, cypress and Oregon pine. They are thoroughly painted with the best lead and oil paints; being bolted together, the erection is quickly accomplished by a "handy" man.

The greenhouses are furnished with or without a heater room, as desired. When placed near a garage or house where heat can be supplied without an independent heater, the glass units only need be purchased, in which case a door is furnished in the end of the last glass unit.

The picture below shows the interior and layout of our Unit Greenhouses. There is a Potting Bench in the Heater Room and Plant Benches 30 inches wide by four inches deep along the two side walls and one end of the Glass Unit. Between the Plant Benches is a board walk, and under these benches are the four lines of hot water pipes. The Hot Water Heater is operated by coal and is automatically regulated.

The outfit is as complete and practical as it is possible to make it.

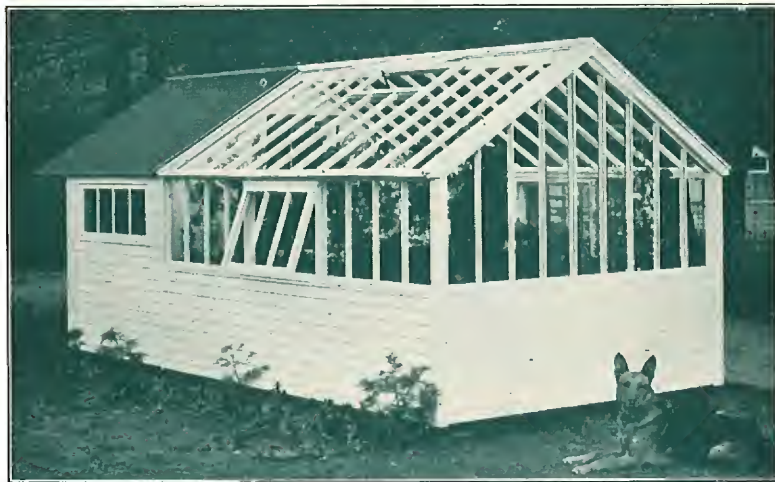

Floors: No floors are furnished with these outfits, for dirt, brick or cement are more practical than a wooden floor. Bricks simply laid in sand make an excellent floor.

INTERIOR OF A HODGSON GREENHOUSE

Glass: is only furnished when ordered. As the glass must be set after the building is erected, the purchaser has to have this done locally.

If Vitaglass is wanted, it costs three times the price of greenhouse glass.

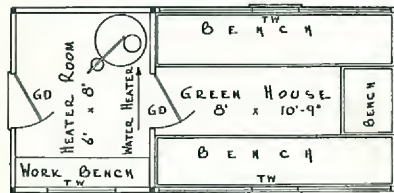

HODGSON GREENHOUSE—ONE GLASS UNIT AND HEATER ROOM

Price without glass\$270.00 Extra for glass\$35.00
Price of Heater with all necessary pipes cut to fit.....135.00
Price of Galv. chimney and smoke pipe installed..... 15.00
Add \$5.00 if a copper chimney is wanted

THIS picture and plan show a greenhouse of one glass unit and a heater room. To this can be added more glass units. The heater room is better shown on page 13.

Our hot water heater which burns coal and is automatically regulated, is very simple and easy to operate, consuming but little coal. Four lines of hot water pipes run around all sides of the glass unit, under the flower benches. There is much useful space under these benches for planting; and additional shelves can be installed above the regular flower benches, greatly increasing the greenhouse capacity.

Not a Pane of Glass Broken

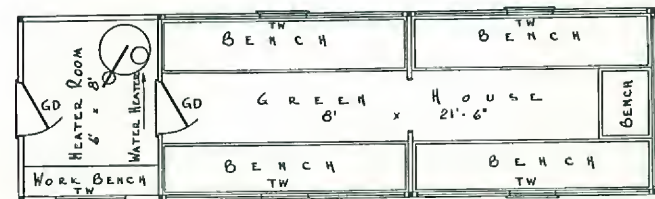

"My greenhouse is up in place and I am much pleased with it. Everything was well packed, not even a pane of glass was broken. My son, who lives in Long Island, is so pleased with my greenhouse that he thinks of getting one a little later on."

MARY R. BRAMAN (MRS. C. R.),
The Knoll, Wyckoff, N. J.

HODGSON GREENHOUSE—TWO GLASS UNITS AND HEATER ROOM

Price without glass\$380.00 Extra for glass\$60.00
Price of Heater with all necessary pipes cut to fit153.00
Price of Galv. chimney and smoke pipe installed..... 15.00
Add \$5.00 if a copper chimney is wanted

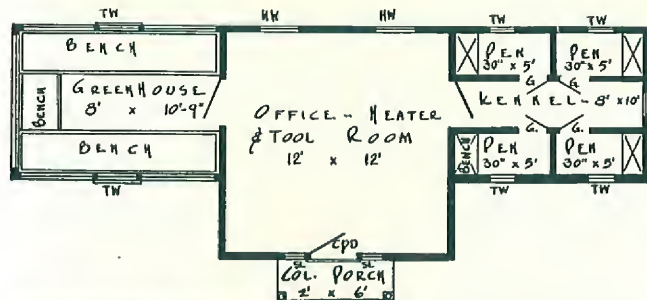

THIS view of our greenhouse shows two glass units and the heater room, with galvanized iron chimney. A brick chimney can be built after the greenhouse is erected at a cost of from \$20.00 to \$30.00. We can furnish our metal chimney in copper at \$5.00 extra.

Our regular size heater will easily heat these two units, but if you intend to add more units later we would recommend the use of our larger heater, which will heat up to four glass units. This would eliminate the expense of changing the heater should you enlarge the greenhouse. The larger heater would add \$26.00 to the price of \$153.00 quoted above.

GARDEN OR TOOL HOUSE WITH GREENHOUSE AND KENNEL No. 3408

The plan shows a Kennel Unit, but it can be had as a Poultry or Pigeon Unit at the same cost.

THE plan gives the measurement of the different rooms in this building, but either the greenhouse or kennel can be easily increased in size by adding additional units of the same size.

The main or central room makes a good work or tool room, office, wash or heater room, etc.

The greenhouse unit has benches as described and shown on pages 13 to 15.

Attracts Martins

"Last year I bought one of your Martin Houses. On April 10th Martins came and looked it over and were pleased with it. I have counted as many as 60 Martins around the house. Later Flickers raised a family in the attic. The openings are a little small for Flickers but they pushed in and I allowed them to stay. Many people stop to look the house over and we are pleased with it."

NO. 4 KENNEL SIZE 12 x 48 FT. OFFICE AND FIVE KENNELS (MORE CAN BE ADDED)

HODGSON KENNEL NO. 4A

THE price of the 12 x 12 ft. office, also the price of each kennel, is itemized below, so that any number from one up can be bought. Each kennel contains a bench, one double-hung window, a dog door and a regular panel door in front. The partitions are boarded up solid some 4 ft. with about 3 ft. of fine square mesh netting above. The door or gate from passage to kennel is Dutch style. The passage is wide and roomy and well lighted by transom windows. The ells can be dropped if not needed, or increased in size to 7 x 12 ft. The building is furnished with a good hard pine floor, but if you prefer to put in a cement floor we will allow you for the wooden floor. The sides and roof are of red cedar and the interior woodwork is treated with a sanitary preservative. Painted three coats.

No. 4A Kennel:

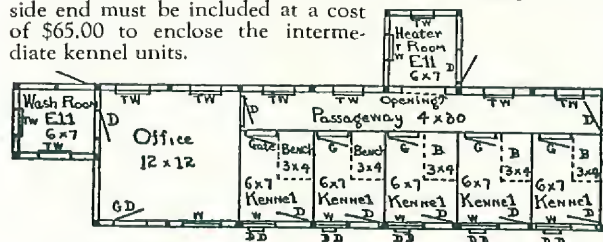

12 x 12 ft. Office.....\$334.00

Five intermediate Units, including passageway, partitions, benches, windows, doors, gates, etc., at \$160.00..... 800.00

Two 6 x 7 ft. Ells, at \$110.00..... 220.00

Complete as shown \$1,354.00

If the office is not bought an outside end must be included at a cost of \$65.00 to enclose the intermediate kennel units.

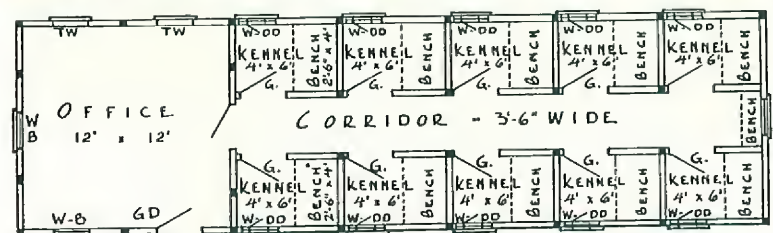

NO. 4 KENNEL: PLAN A

Plan of No. 4A Kennel showing arrangement of rooms. It can be added to at any time. It can be bought without the office or ell, and as many of the kennels as desired.

HODGSON NO. 4 KENNEL AT RED BANK, N. J., WITH OFFICE AND 12 UNITS

NO. 4 KENNEL: PLAN B (CENTRAL CORRIDOR)—5 UNITS

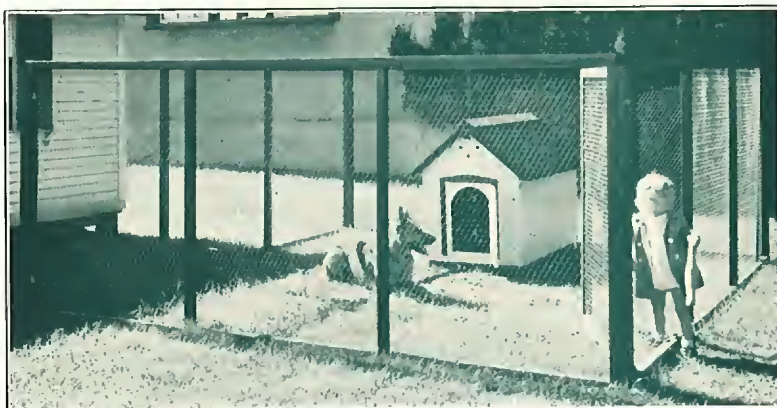

12 x 12 ft. Office.....	\$334.00
Five intermediate Units with ten kennel pens, including passageway, partitions, benches, windows, doors, gates, etc., at \$180.00.....	900.00
Total.....	\$1,234.00

If the office is not bought an outside end must be included at a cost of \$65.00 to enclose the intermediate kennel units.

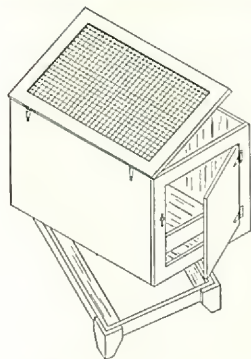

The above plan No. 4B is similar to plan 4A on opposite page except that 4B has a central corridor with kennel pens on each side. This, of course, reduces the size of the kennel pens thus reducing cost per pen. There are two pens to every unit of six feet and the pens are large enough for the average dogs.

Blarney Kennels, John G. Bates, Owner

James St., Morristown, New Jersey

"It gives me great pleasure to write you and let you know that the large kennel and the cottage which I bought from you four or five years ago have given me complete satisfaction.

"They have withstood all weather changes and are in practically the same condition now as when erected."

JOHN G. BATES.

AT OUR EXHIBITS

ALL of our exhibits are extensive and comprehensive, each having at least one large, full-sized cottage, interestingly furnished; also camps and camp cottages; greenhouses; play houses; bird houses; kennels, both large and small; poultry houses; garden furniture, etc.

We hope you will be able to visit at least one of these exhibits and become acquainted with the Hodgson products.

If you wish more information than given in this booklet, send for our "Large House Catalog" showing many cottages and play houses; or if you want an inexpensive camp, send for our "Camp House Booklet," illustrating camps that have been in use for nearly half a century in many countries and all climates.
